

We offer airport pick-up to and from the apartment at a cost of £18 each way.

Our drivers are **Tomas** (Citroen Jumper minivan) and **Mirek** (Mercedes E-Class). Both are high quality vehicles with air conditioning.

There are two reasons we recommend this service rather than making your own way:

1) Cost.

It is slightly cheaper than airport taxis, with the other advantage that they can easily find the flat, which the airport taxis sometimes can't, as it's in among the small lanes by the Old Town Square.

2) Convenience.

The taxi driver follows the arrival time of your flight on the Prague Airport website so you can be sure he will be there at the right time. He will wait in the arrivals area with a sign with your name on it (there is only one arrivals exit).

From there he will take you to the taxi and drive you to the apartment, calling the receptionist (Halina) to make sure she will be there waiting.

On arrival at the apartment you agree the departure pick-up time with the driver. Then the receptionist will take you to the apartment and give you the keys.

[Public transport is not really a suitable option if you have luggage as it involves quite a lot of walking and changing from bus to metro. There is no train from the airport. Also it becomes difficult to arrange for the handover of keys if we don't know what time you will arrive.]
